AN ATTACK ON "DORA"

ASTONISHING OUTBURST IN ENGLAND

CHORUS OF "AYES" FOR ABOLITION

London, Sept. 6.—An avalanche of approval from the mayors of the country has greeted the action of Captain C. P. Davis, Mayor of Deal, in appealing to them for support in a nation-wide campaign against the hundred-and-one petty restrictions of "D.O.R.A."

From Newcastle to the Isle of Wight, from Manchester to Yarmouth, the Lord Mayors and mayors of great cities, of residential towns, and of holiday resorts alike respond with a resounding "Yes!" to Captain Davis' call for the abolition of the detested Defence of the Realm Act.

The Mayor of Deal, who, with fellow magistrates, gave local licences authority to sell drinks from 11 a.m. to 11 p.m. during a regatta, sent a letter to every mayor in the country yesterday, asking for support in pressing for the abolition of restrictive regulations.

Although a number of mayors have still to receive the letter, reassuring attitude was expressed by civic chiefs all over England yesterday who had read the text of Captain Davis' letter, exclusively published in the *Daily Express*.

Approval of the demand for the raising of petty restrictions had already come from the following civic chiefs of the following towns:

Barnmouth, Blackburn, Blackpool, Bolton, Bradford, Bridlington, Cardiff, Chester, Colchester, Leeds, Lowestoft, Maidstone, Manchester, Bath, Middlesbrough, Morecambe, Newcastle, Norwich, Portsmouth, Ramsgate, Reigate, Ryde, Salisbury, Scarborough, Southampton, St. Helens, Twickenham, Wrexham, Yarmouth.

Doubtful attitude on the question were expressed on behalf of the civic heads of:—

London, Preston, York, Birmingham, Luton, Bristol, Worcester, Hastings, Worthing.

Here are some opinions from the various mayors as expressed to the *Daily Express*.

Alderman C. Nixon, Ramsgate's teetotal mayor, while favouring the control of the drink trade, says:—"There are many restrictions, irritating to the general public, such as laws about the sale of smokers' requisites, which should be swept away."

The Mayor of Blackpool, Councillor Leonard Newcome, said:—"The result of my observation is an absolute conviction that restriction irritates and creates vicious the once-harmless practice of drinking. When the law closes at 11 p.m. and dancing continues to 2 a.m., people rush their drinks, so as to get going for night. I am sure that if drinks could be obtained as long as the dance lasted people would not drink more."

Cause of Drink Problem.

"Restriction has caused the drink problem in the United States. Restriction is gradually causing men and women who come to Blackpool to become 'alcohol conscious,' and to lose their sense of balance where drinking is concerned."

"The only way a healthy attitude can be reintroduced is by the immediate abolition of 'Dora.'"

Alderman F. G. Foster, Lord Mayor of Portsmouth, said:—"I am in favour of more freedom. The 'Dora' restrictions are far too drastic for the present day."

Councillor J. S. Rambridge, Mayor of Salisbury:—"Certainly 'Dora' ought to be abolished forthwith."

Mr. S. W. Humphrey, Mayor of Lowestoft:—"The country has been under these restrictions long."

SIR HERBERT AUSTIN OPTIMISTIC

MOTOR SALES IN CHINA TREBLED

A WORD OF WARNING ABOUT TRADE SHOWS

Birmingham, Sept. 6.—Sir Herbert Austin made some pointed remarks, when outlining the new Austin programme at Birmingham today, regarding the production of next year's models long before the autumn Motor Show.

"I observe with great misgiving," he said, "the tendency to make new programme announcements early in the year, because it is certain to have a disastrous effect not only on second-hand car values but on car sales generally. In the past the Motor Show has been blamed for the lull in sales between July and October, but we are now getting the wait-and-see complex more strongly developed in the car-buying public, extending over a much longer period."

He struck an optimistic note in regard to overseas trade.

"During the past year, notwithstanding the world-wide depression," he said, "we managed to maintain our export trade at practically the same figure as the previous year."

"There was a decided improvement in our sales to Australia, the trade being just about doubled. In China our trade was almost trebled, in Spain quadrupled."

"In Ceylon and the Federated Malay States we continue to hold our premier position. In New Zealand we were only just beaten for first place by a leading American manufacturer."

The surprise of the new programme is the introduction of a new twelve-horse-power light four-seater model priced at £175 for the saloon, and a reduction in the price of the famous Baby Austin. The two-seater is now available at £105, the saloon at £115, and the fourer at £110, compared with £118.

It is time England was restored to normal conditions. We gave extensions until 10.30 to licensed premises during the summer. This has not had an injurious effect. I shall do all I can to push this campaign."

The Lord Mayor of Newcastle, Councillor J. G. Nixon, is completely in favour of the abolition of drink restrictions on the sale of drink. "The general opinion in Newcastle, apart from my own," he said, "is against all licensing restrictions, which were imposed under conditions of war. Normal conditions should have been brought back before now, and I can safely say that I agree entirely with the Mayor of Deal's letter."

Councillor F. J. Spranger, Mayor of Reigate:—"I am entirely in favour of Captain Davis' attack on 'Dora.' It was essentially a wartime measure, and ought to be abolished in time of peace."

The Lord Mayor of Manchester, Councillor Ellis Green:—"My personal opinion is shared by the majority of the city council, though I cannot speak for Manchester."

"The war is over, and it seems reasonable to expect the early abolition of all-outdated war restrictions."

"I believe very strongly that the extension of licensing hours will cause a reduction of what little disorderly behaviour there is in this city, rather than an increase."

The Mayor of Maidstone:—"I entirely agree with the Mayor of Deal. I am absolutely with him. I am a magistrate by virtue of my mayoralty, but I am very much younger than the licensing justices here. When application was made recently for an extension of the licence during Maidstone Cricket Week it was rejected, and I had to inform the people, much to my regret, that it had been turned down. Those who cannot behave themselves should be punished, but why should these few cause millions of decent people to suffer? Let us get back to the freedom of pre-war days."—*Daily Express*.

THUNDERSTORMS AT THE ZOO

MONKEYS AS NERVOUS AS SCHOOLBOYS

THE PLACID HOPPO

London, Aug. 2.—How do the animals at the Zoo react to a thunderstorm? Do they enjoy these atmospheric fireworks, or are they frightened by them?

This is what an authority at the Zoo says:

"Storms do not cause a lot of disturbance here, especially when they occur in the daytime and there are plenty of visitors sheltering in the houses to divert the animals' attention."

"When the Gardens are deserted, however, you can find several Zoo inmates who are just as much affected by thunder as some human beings."

"It would have to be an exceptionally severe storm to disturb the more placid temperaments, such as those of the sheep or cattle. But highly-strung and intelligent animals react in a curious way."

"The greatest commotion is caused in the Monkey House, and a vivid flash of lightning—particularly after dark—reduces many of the inmates to a highly nervous state. Where several monkeys are occupying one cage they usually huddle together as though convinced of the truth of the old saw 'There's safety in numbers'."

"The Zoo birds behave in much the same way as do birds in thunderstorm anywhere—they become very subdued and sit on their perches watching Nature's fireworks quite philosophically."

Living Barometers.

"The waterfowl are an exception, though. Some of these grow very restless, especially before the storm breaks. Their skulls are so thin that they are really sensitive barometers which 'feel' a storm coming and cause the birds to behave oddly."

"Some of the Zoo's frogs are affected in a similar way. You don't often hear them croaking, but when you do you can be sure there's a storm blowing up."

"The wolves are more affected by a thunderstorm than you might think. Some of them have all the appearance of being afraid—about the only time you see them show fear, by the way—and creep into a corner of their dens; others get so nervy that they spend the time dashing about in their cages."

"Most of the animals take care to get under cover when a storm blows up, but not all. I should say those least affected by a storm are the hippos and sea-lions."

"It would take more than a clap of thunder to shake the nerves of the hippo, while the sea-lions always carry on in the usual way during the fiercest downpour and are not in the least daunted by either thunder or lightning."

SINGAPORE WEDDING

MR. A. McM. KITTLES AND MISS N. WRIGHT.

The wedding took place at the Singapore Presbyterian Church, the Rev. Stephen Band officiating, of Mr. Andrew McMurray Kittles, third son of Mr. and Mrs. James Kittles, of Douglas, I.O.M., and late of Perthshire, to Miss Naresnah Wright, only daughter of Mrs. F. Wright, of Shanghai, and the late Mr. Harry Wright, of Sheffield.

The bride, who was given away by Mr. W. B. White, wore a gown of fine shadow silk lace on Empire lines, with long train and unusual sleeves puffed above the elbow and long tight cuffs finishing in miters. The veil was of Bruges lace held in place by orange blossoms. She carried a bouquet of white carnations. There were no bridesmaids.

Mrs. W. B. White, matron-of-honour, wore a gown of pink-flow. (Continued at foot of next column.)

LITTLE PRINCESSES CHEERED

DEESIDE WAITING TO WELCOME KING AND QUEEN

A ROYAL BIRTHDAY

Aberdeen, Aug. 22.—Deeside is waiting to give a hearty welcome to the King and Queen when they arrive this evening for their annual holiday at Balmoral Castle.

The royal train will make a brief halt to change engines at Aberdeen, the gateway to the Royal valley, and on a specially decorated part of the platform Lord Provost Rust and the magistrates of the city will await its arrival to welcome their Majesties to the North.

The Marquis of Aberdeen and Temair, as Lord Lieutenant of Aberdeenshire, will meet the train at Ballater, where the guard of honour of the King's Own Scottish Borderers will be drawn up in the station square.

Princess Elizabeth and Princess Margaret Rose, the little daughters of the Duke and Duchess of York, arrived on Saturday forenoon at Birkhall on the Royal estates on Deeside, where Princess Margaret Rose yesterday celebrated her second birthday.

The Princesses travelled North overnight in charge of their nurses in a special saloon carriage attached to the London express arriving at Aberdeen at 7.10 a.m.

Breakfast was served in the saloon and the carriage was transferred to the 8.10 a.m. Ballater train for the run up Deeside.

Despite the early hour a small crowd, chiefly of women and girls, gathered in the station in the hope of catching a glimpse of the young royal visitors.

They were not disappointed. Shortly before the train was due to leave the blinds of the carriage, which had been drawn, were raised, and the Princesses appeared at the window for a few minutes and smiled and waved to the onlookers, who included a number of children.

At Ballater, which was reached before 10 o'clock, a large crowd gathered and cheered the Princesses as they left the station and entered the motor car for the run to Birkhall.

Princess Arthur of Connaught and her son, the Earl of Macduff, also arrived on Deeside on Saturday. They travelled North from King's Cross arriving at Aberdeen at 7.30 a.m. After breakfast in the Palace Hotel they left for Mar Lodge by car.

PAPER SUSPENDED

FOR CRITICISING GERMAN GOVERNMENT

Berlin, Sept. 15.—The Democrat paper Berliner Volkszeitung has been suspended for a week for publishing an article by Herr Nowia-sky, Professor of Constitutional Law, in which he examines the events of the past few days and charges the Government with unconstitutional conduct.

ered chiffon, with a hat in toning shades of coarse straw.

Mr. L. G. Smith was best man, and Mr. William Park and Mr. W. C. Mackay acted as ushers. The service was choral; Mr. A. E. Weller playing the organ.

A reception was held after the ceremony at Chartered Bank House, 21, Cairnhill Circle. The health of the bride and bridegroom was proposed by the Rev. Stephen Band and the bridegroom suitably replied. Mr. L. G. Smith proposed the toast of absent friends.

Mr. and Mrs. Kittles left later in the evening for the honeymoon, which is being spent at Hua Hin. The bride's going away dress was of flowered beige nylon with beige straw hat, shoes, gloves and hand-bag to match.

"FEAR NOT"

YAWL SINKS DURING SAILING RACE

Glasgow, Aug. 22.—An open-decked yawl, the Fear Not, which was one of the competing craft in a sailing race promoted by the Ravenshough Yacht Club, Prestonpans, on the Firth of Forth, off Prestonpans, on Aug. 20, heeled over, filled and disappeared in a rough sea.

Her crew consisted of two brothers J. Reid, Cuthill, Prestonpans; W. Reid, Musselburgh; and a boy, Matthew Marr, Prestonpans. The accident occurred as the mark buoy was being rounded, and fortunately there were other vessels close at hand, and one of these picked up the men and the boy from the sea and took them ashore.

DEPTH OF ATLANTIC

THEORIES DISCREDITED BY SUBMARINE EXPLORATION

Amsterdam.—Discoveries of scientific importance have been made by Professor Vening Meinesz as the result of a journey, which he has just completed, on board the Dutch submarine 0.13 in the Atlantic Ocean.

He claims to have proved that the sea-ridge, south-west of the Azores, which has so far been thought to lie at a depth of 10,000 feet, is in reality no more than 3,300 feet deep. His researches have also led him to discredit altogether the existence of great depth of the Atlantic, south-west of England, which, according to the charts, is given as 20,000 feet.

The trip lasted six weeks and took the professor as far as Ponta Delgada, in the Azores. He declares that the 0.13 behaved magnificently and accomplished a record number of dives, enabling him to make important gravitation measurements and observations of the sea-bottom, especially near the Azores.

"A great many changes in the existing charts will have to be made," he said, "as the result of my exploration, and possibly some light will be thrown on the mysterious question of the existence of the mythical continent of Atlantis."

CHINESE TEAMS IN GREAT FETTER: SOUTH CHINA AND ATHLETICS WIN

BOTH RECREIO TEAMS HEAVILY BEATEN

The football season officially opened on Saturday when there were no fewer than eleven matches decided.

That the Chinese teams, which were absent from the league last year, are going to make up for lost time, is amply evident by the sweeping victories which they had in all divisions of the league.

St. Joseph's were occupied in the first and third divisions and won in both places. The Club de Recreio's first team went under by seven goals to one in the first division and their third division also were beaten by the same margin.

SOUTH WALES BORDERERS DOING WELL

The South Wales Borderers did well when their seniors won by four clear goals from the Royal Artillery and their third division team accounted for the Signals.

There was a glut of goals, as the following summary of the results will show:—

FULL RESULTS

Division I.	
Kowloon	1 South China 4
Police	1 St. Joseph's 2
R.A.	0 Borderers 4
Athletic	7 Recreio 1

Division II.	
Kowloon	2 South China 2
Ewo	2 Navy 4
Club	3 R.A. 2

Division III.	
Borderers	7 Signals 1
St. Joseph	7 Recreio 1
Athletic	4 University 9
South China	3 Radio 0

FIRST DIVISION

S.C.A.A. v. KOWLOON

This was the outstanding match of the afternoon and drew a full house at the K.F.C.'s ground.

The Chinese played superior football throughout and by the interval were two clear goals ahead of Kowloon. At no stage did Kowloon look a beaten team, but try as they would they found the Chinese defence a bit too good for them.

Five minutes after the start, South China drew first blood to the accompaniment of a great cheer from their large crowd of supporters. Just before the interval they scored a second goal.

On resuming, the Kowloon team forced a couple of corners, but weak shooting by the forwards spoiled several opportunities. The Chinese in their turn pressed Kowloon and a clever movement between their right wing and inside right resulted in the ball being headed into the net. The fourth goal came shortly afterwards and then the pace slowed down visibly. The Kowloon team, undaunted by their four goals deficit, kept their end up and just before the final whistle, were rewarded with a single goal. The final score was 4-1 in favour of South China.

ATHLETICS v. RECREIO

The Athletics accounted for the Club de Recreio by 7-1 although after the first half it looked as though a close game was going to be seen after all. The Chinese were only a single goal ahead at the interval and although they had a bigger share of the game in the first half, the Recreio team might well have equalised on more than once occasion.

In the second half the game became somewhat scrappy and the Athletics, combining well, scored six more goals to the Recreio's single. On the run of the play the Athletics were certainly much the better of the two sides and fully deserved their victory.

ST. JOSEPH'S v. POLICE

This match, played at Happy Valley, was full of thrills and the luck of the game first swung to one side and then to the other but ultimately St. Joseph's won and it would not be unfair to say that had the Police had a bit of luck they might have won just as easily.

At the interval, the Police were leading by a single goal but the second half was the really exciting one, when the College representatives, after drawing level, pressed the Police time after time, and were in their turn pressed. About fifteen minutes from the end St. Joseph's scored their winning goal and successfully kept out the Police for the rest of the game.

S.W. BORDERERS v. R.A.

The S.W.B. were generally expected to account for the R.A. and they made no mistake with their game at the military stadium as

Sookunpoo. The Artillerymen were able to keep their end up for some time and only allowed the Borderers a single goal in the first half, but in the second half they were overwhelmed and the final score of 5 goals to nil was not an untrue reflexion of the difference between the sides.

SECOND DIVISION

KOWLOON v. SOUTH CHINA

This game was one of the prettiest seen on the Kowloon ground for many a long day. A large number of spectators saw the game. In the first half the Kowloon players would not keep on the heels of their opponents but in the second half they pursued a policy of persistent tackling which had its reward in the greatly decreased morale of the Chinese, but Kowloon were unable to do more than level the scores.

A missed penalty by Kowloon was perhaps the only mistake of note made during the game, in which Bickford of that side played a magnificent game. Phillips also played exceedingly well, and should prove a valuable addition to the side. The final score was 2-2.

NAVY v. EWO

The Navy were successful in their match with Ewo after a hard fought game. Great keenness was exhibited by both teams, the Navy enjoying an advantage in weight and better team work, were able to claim full points.

CLUB v. R.A.

This game which was fought out on the Club ground was of a very scrappy nature. At half time R.A. were in the lead with one goal against their opponents' nil, but the Club picked up in the second half and the final score of 2-2 was a fair ending to the game. Both sides have much room for improvement.

THIRD DIVISION

S.C.A.A. v. RADIO S.C.

South China beat the Radio S.C. by two goals to nil in a somewhat humdrum game in which the forwards of both sides carried the brunt of the play. South China scored their goals early in the game, and established their lead of 2-0 before half time. When play was resumed Radio pressed very hard but were kept at bay by South China, and the final score was the same as that at half time, 2-0 in favour of the Chinese.

ATHLETIC v. UNIVERSITY

This was an interesting match from the spectators' point of view, though the University should have lessened their opponents' lead before the end. Both goalies were frequently tested and both played steady games.

ST. JOSEPH'S v. RECREIO

This was a one-sided match in which the final score provides a fair summing up of the play. The quality of football played was not high, and the Recreio team will have to pull themselves together as they look like being the "wooden spoonists" this season.

S.W.B. v. R.C. OF S.

This proved to be high scoring game in which one team held their opponents in the first half but weakened after half time. In the first half both teams made a very good showing, and at half time the score stood at one all. On the resumption of the play the game was kept fairly even and was well-contested, but in the last twenty minutes of the game the Signals collapsed and the S.W.B. added six more goals. The final score was 7-1. This game was played on the Sookunpoo ground.

DORRANCE CUP COMPETITION

TAIKOO ACCOUNT FOR KOWLOON DOCKS

The annual lawn bowls match between Taikoo and Kowloon Docks for the "Dorrance" cup was played at Taikoo on Saturday and resulted in a victory for the home team by 20 shots.

At the conclusion of the game, Mrs. Stewart, wife of Mr. G. H. Stewart, the Chairman of the Lawn Bowls Section of the Taikoo Recreation Club, presented the Cup to the winning team. In asking Mrs. Stewart to do so, Mr. Revie, the Chairman of the Kowloon Dock Recreation Club, remarked on the enjoyable game played that afternoon. He said this match was not only an annual event between the two clubs, but it did a great deal towards a better understanding between them.

MESSRS. G. A. HARRIMAN'S REPORT

ACTIVITY CONTINUED

The market continued its activity throughout the week, and in some sections trading was on very brisk scale more especially in stocks, like Hotels, Cements, China Lights, Providents, and Realities. Cements and Lights remained more or less round the same figures of \$15.00 and \$18.25, respectively, but Realities at one time improved to \$10.50 cash and \$10.75 October, and Providents at \$5.00 cash and \$5.05 October. The investment section was active with Electric bid up to \$77 cash, whilst Trams were in strong demand at \$22.00. Telephones jumped to \$25.00, and Ferries were wanted at \$31. The sterling section remained more or less nominal throughout the week owing to the very slight fluctuation in exchange, with Banks quoted at \$1.010 and Unions at \$500.00. The tone of the market is good, with trading conditions improving.

Banks.—Hong Kong Banks were in demand at \$1,605. Bank of East Asia could be placed at \$108.00.

Insurance.—Unions were transacted at \$507.00 and there were further buyers at \$505.00. China Underwriters met with enquiries at \$2.95.

Shipping.—Union Waterboats were in demand at \$20.

Docks, Wharves and Godowns.—Wharves were wanted at the improved rate of \$146. Providents (Old) after having been done up to \$5.10, received a little, buyers offering only \$5.00.

Hotels and Real Estate.—Hotels (Old) rose to a buying rate of \$12.35 in the middle of the week, but closed easier with buyers at \$12.40. Hong Kong Lands changed hands at \$70/70, and more shares could be had at the latter rate. A fairly large business was done in Hong Kong Realty at rates between \$10.00 and \$10.60, closing in demand at \$10.25.

Cotton Mills.—Ewos changed hands at \$14/10/40, closing easier at \$14.15.

Public Utilities.—Tramways continued in demand at \$22.00 with (Continued on next column.)

BRITISH WAR LOAN CONVERSION

ONLY 8 PER CENT. TO BE REDEEMED

[THROUGH REUTERS AGENCY.]

LONDON, Sept. 30.

THE remarkable success of the five per cent. war loan conversion was announced by the Chancellor of the Exchequer to-day when that part of the loan regarding which no intimation has been received will be automatically included in the amount to be converted.

The official statement says that out of the total sum of £2,085,000,000 which was outstanding on June 30, £1,920,000,000 has been converted, leaving £165,000,000 or eight per cent. to be redeemed in cash on December 1.

MICKEY MOUSE—THE WORLD'S GREATEST STAR

(Continued from Page 12.)

Suppose, not unreasonably, that Mickey books to a third of the cinemas in the United States—about 7,000—and at a figure, at its lowest, of \$1 a booking, then he takes in America about \$7,000 a month, or \$1,750 a week!

This excludes the enormous sums he earns in various other countries throughout the world.

It has been estimated that one Mickey cartoon, representing a week's work on the part of Walt Disney and his co-draftsmen, brings in a sum, in world rights, of \$150,000!

Disney began work as a strip cartoonist on a Kansas newspaper at the age of 17. He describes his invention of the world-famed mouse as follows:

"I thought the public would like a little animal that sort of satisfied the fads and foibles of all of us—the silly things that we do every day and laugh at the other fellow for doing!"

"The real secret of Mickey Mouse's success is that he is never consciously funny. He's always so dead serious about the things he's doing—even as you and I!"

Mickey in Rehearsals.

Disney is one of the most brilliant directors and editors of sound cartoons in the world. But after three years with his menagerie of queer beasts he considers that the public could do with some new specimens.

Each new figure added to the stock company will be rehearsed by the Disney staff of "animators," as they are called, before being welcomed into the Mickey mouse-trap. The "animators" I should explain, are the technical men who draw Mickey on thousands of sheets of paper before the cartoon is set in motion by the camera. Each cartoon runs for eight minutes and requires 5,000 drawings.

HOKO FOR MANCHURIA

INTENSIVE ESPIONAGE SYSTEM.

The Hoko says that the Manchukuo Government contemplates introducing what is called the hoko system for the maintenance of peace and order in the territory. With this object in view, the authorities concerned are studying the operation and the results of the operation of this system in Formosa and Kwantung province (Japanese leased territory).

According to the Tokyo paper, the hoko system was introduced in 1923, or three years after the island fell into Japanese possession, while in Kwantung province it has been in operation since it was leased by Japan.

Ten households constitute one ho, and ten ho form one hoko, the business of hoko community being transacted by a group of persons elected from the component ho. The functions to be discharged by this body are various. They include inquiries into matters relating to population, control of people coming into and going out of the district, prevention of natural disasters, guard against and search for bandits and robbers, prevention of epidemics, repairs of roads and bridges, and helping the police in the search for and arrest of criminals.

It is believed that in a country like Manchukuo—which is infested by bandits, the formation of groups by able-bodied inhabitants in each hoko for helping the police in their peace preservation business will prove very useful.

FINANCES OF COUNTY CRICKET

YORKSHIRE'S SUCCESS

MANY CLUBS IN POOR POSITION

The County cricket season of 1932 is over, and the time has come for the inevitable reckoning. Seldom has it been approached with such anxiety as that which prevails this year among the first-class counties. The changed conditions under which the championship game is played have made it necessary that accounts should be scrutinised as earnestly as the scoreboard.

It is too soon yet to obtain a complete statement of profit and loss, but judging by the messages received from the club officials it may be said that the situation is inspiring more optimism than pessimism.

This, of course, may be due in several instances to sheer relief that the dire prophecies which were broadcast earlier in the season have not been fulfilled. Even the most badly-hit clubs, such as Glamorgan, Derbyshire, and Warwickshire, have survived a deplorable beginning that was mainly due to an abnormal spell of bad weather, affecting the more prosperous as well.

For example, not only were the Essex "gates" ruined in nine out of thirteen matches, but Yorkshire were prevented from playing cricket on eleven days in succession.

It was too much to expect that counties which had been crippled by the misfortunes of previous summers should have made up sufficient leeway, when the fine weather arrived, to complete the season with a financial balance on the right side. But the visit of the Indian team has helped considerably to reduce the losses. I understand that only Derbyshire, Essex, Glamorgan, and Leicestershire had indifferent gates during their fixtures with All-India, and that in two of these cases the weather was a spoil-sport, writes "White Willow" in the Daily Telegraph.

Essex Lost £1,000.

Essex, Glamorgan, and Derbyshire have unfortunately had a lean year generally, although by drastic economies Essex managed to keep their losses down to £1,000 and Glamorgan to £1,200. Derbyshire saved themselves through two appeals for public aid which were successful. Northamptonshire, too, made a public appeal; and this, I hear, "was sufficiently successful to ensure another season's play."

Glamorgan had welcome evidence during late August that cricket is desired in the county after all. Three weeks ago the position was so serious that the suggestion was made that the club should relinquish its first-class status. But the home matches which followed were surprisingly well patronised, and the deficit on the season's work amounted to no more than half of what had been feared.

Yorkshire's Increased Gates.

Yorkshire's own financial success has been assured ever since the campaign got properly going. The figures already announced officially must turn less fortunate counties green with envy. Their total net

gates amounted to £8,348, an increase on last season's figures of more than £1,000.

Lancashire have suffered badly through the prevailing industrial depression, and several schemes of improvement are to be considered during the winter. Somerset will show a profit, but it is disappointing to learn that Sussex, the runners-up in the Championship, expect to do no better than "just balance their accounts."

According to present expectations "there is not likely to be any profit. The bad weather in May and the absence of home matches in June placed the club in a serious position; but it was retrieved through an excellent Hastings week, which brought in £1,700, followed by success at Eastbourne, where £800 was taken, and at Hove."

Kent on Right Side.

Kent, who had a share in the Sussex recovery, will definitely come out on the right side. It is interesting to note that although so many of their matches were completed in two days, the loss of a third day gate has done no serious damage, third-day gates being negligible unless the position of the game be exceptional.

When the counties have completed their financial budgets the immediate task will be to discover how to balance them of keep them balanced. All sorts and conditions of reforms are likely to be advocated, but in my conversations up and down the country with officials and players I feel certain that any tampering with the game itself, any attempted "brightening" of play, would have no support from those who are intimately concerned with cricket.

RAISED AFTER 18 YEARS

DOVER'S FIRST SUCCESS IN SCHEME TO CLEAR HARBOUR

SUNKEN BLOCKSHIP

London, Aug. 31.—After being sunk at the western entrance to Dover Harbour for 18 years, part of one of the two blockships used as a boom defence during the war was raised yesterday.

The two ships were, the Spanish Prince and the Lavonia. Work on the Lavonia, which was sunk in 40 feet of water close to the end of Admiralty Pier, has been going on since May last year. She was a vessel of 4,000 tons, and before an attempt could be made to raise her she was cut into four sections with acetylene burners, worked by divers. She was also cleared of sand ballast, which was pumped out and dumped into the channel.

Six nine-inch steel wire ropes were placed under the section to be lifted, which weighed about 1,500 tons. Two Admiralty lighters from Portsmouth were filled with water and sunk at low tide. The wire ropes were fastened to the lighters, and yesterday morning as the tide rose the Harbour Board tug, Lady Dungeness started to pump out the water.

Local Enterprise.

Very slowly the stern of the Lavonia began to lift, and another Dover tug, Lady Brassey, started to tow her across the harbour.

The whole of the work is being carried out under the supervision of Captain J. Iron, the Dover harbourmaster, and yesterday about 50 men were assisting in the operations.

Originally it was proposed to place the work out to contract, but after tenders had been received from German, Dutch, and British firms the Dover Harbour Board decided to save a considerable sum by conducting the operation themselves.

TESTING A LOOKING- GLASS

When purchasing a mirror it is advisable to get one with thick glass, as it gives a better and clearer reflection. Many a customer, however while paying a first-class price has had a second-class article foisted upon him. Here is a simple but infallible test for telling the depth of a mirror. Hold the edge of a coin against the glass and note the space between the coin and its reflection. That space is the same as the thickness of the glass.

A COBWEB.

A fairy shawl it seems to be,
A lovely lacy thing to see,
Clinging, winging, swinging in the tree.
And if I did not know, I'd say,
A fairy going by to-day,
In haste to keep a secret tryet,
Had left her wrap o' faiklon twist
Upon our tree.
Yet well I know that web of lace
Is more than wrap for fairy grace;
And though it looks so frail, and seems
As if the filament of dreams,
Spun fine by elfin fingers chaste,
Its wispiness had traced,
And hung it there, so we could see
A fairy shawl upon a tree.
I know that one did once inspire
A dreamer with dynamic fire,
So that he built upon that plan
A highway, o'er which fearless
man,
Pursuing on his wing-shod feet
The form of progress beating fast,
Flung arms of steel into the air,
And joining, held her captive
there,
Till stung to each further
edge,
There swung the first suspension
bridge.
Inspired by faintest wisp of net,
By tiny spider idly set,
Like one now spinning on our tree,
And like a fairy shawl to me.

ENERGY

How many of you are going to play a fast running game to-day, or go for a long walk. If you are, you know that afterwards you will feel tired, and be glad to sit still. What happens to your body to make it tired?

You have been using your muscles, stretching and contracting them as you moved, and in consequence they become tired or fatigued. You will find it a much bigger effort to leave your comfortable chair after your day's exercise than before it. This shows that tired muscles take longer to answer the messages that your nerves bring to them, or, to put it another way, they are not excited by the nerve messages so easily.

Two things have happened. You have used up your supply of energy, and you have accumulated a supply of waste matter, for, every time you move, some of our body cells are broken down, and become useless waste.

As well as feeling tired you will probably feel very hungry, because, as you have learned, energy is given to the body, and broken down body cells are repaired by food. So, after exercise, the body needs food. That is why people whose work causes them to use their muscles need more food than those who work at a desk all day.

If you rest your tired muscles, they will recover. Food and fresh air, especially oxygen, which is the life-giving element in the air, will be carried to every part of the body in the blood, and the waste matter will be carried away by the blood.

So fatigue will disappear, and you will be fresh and strong again.

That talking pictures are now being produced in sixty-four languages.

That at Rome there were two temples, one dedicated to Virtue, the other to Honour. No way to enter the last but through the first.

SMILE A WHILE

Home Run.

"I played golf yesterday for the first time."

"How did you make out?"

"Fine! Made a home run right at the start. I batted the ball into the tall grass in left field, and ran around the entire course before they found it."

"Aha! Teacher: 'My father had money' is in the past tense. Now, if I said 'My father has money,' what would that be?"

"Bright Boy: 'Preference.'"

"The Other Way Round."

"Was your landlord put out when you told him you couldn't pay your rent?"

"No, I was."

"Action."

"We'll leave no stone unturned to find your purse," said the police inspector to the young man from the country, who had just lost his purse.

"Hi-m!" exclaimed the young man as he strolled down the next morning and saw the roadmenders at work. "They haven't lost much time."

WEEK END AQUATICS

ROZA PEREIRA WINS 440 YARDS CHAMPIONSHIP

LADIES 100 YARDS RECORD LOWERED

There were no fewer than three swimming fixtures during the week end, the biggest of which was the V.R.C. sports which went with a swing from beginning to end.

The outstanding feature of the V.R.C. sports was the lowering of the Ladies 100 yards record by Miss Yeung Sau King who swam a beautiful race to return the time, 72.1 seconds.

L. Roza Pereira was again successful, his latest triumph being the carrying off of the 440 yards championship from Lawrence and Campbell. The only other competitor was Shek Nam Pui, who, choosing a fast race for himself, stayed with Pereira for the first eight lengths. Then he slackened his pace slightly and when Pereira had completed sixteen laps, Shek was about ten yards behind with Lawrence and Campbell together a further ten yards behind. The seventeenth lap found Shek tiring rapidly and Lawrence and Campbell both passed him, to finish second and third behind Roza Pereira. The time, considering Pereira's previous performances, was comparatively poor.

The best example of the "Flying Dutchman" dive ever shown in the Colony was given by Ed. da Roza in Saturday's diving championships, which he won easily. Pte. Morrison also made a very good show and secured second place.

Results.

The full results of Saturday's swimming are as follows:—

Members 50 Yards Hurdles (Handicap): 1 F. M. Silva, 2 E. B. da Roza.

Boys' Race—50 Yards (Handicap): 1 R. Rocha, 2 L. Remedios. 440 Yards Championship: 1, L. Pereira, 2 W. Lawrence, 3 Pte. Campbell (Time 5.59.1).

100 Yards Ladies Championship: 1 Miss Yeung Sau King, 2 E. Allan (Time 72.1 secs).

Diving Championship: 1 Ed. da Roza, 2 Pte. Morrison, 3 L. Roza Pereira.

Junior Championship of Club: 1st Heat: G. Lynn 70. 2 seconds, 2nd Heat L. A. Soares 72.2 seconds.

Open team race: six a side (50 yards each): 1 V.R.C., 2 South China.

Members' Obstacle Race: 1, E. M. Marques.

CANTON Y.M.C.A.

The "Y" entertained a visiting team from Canton and were treated to some stout opposition by the visitors and had all their work cut out to score points over the Canton team. At the end of the night's competition both teams tied with 23 points, but the Canton team went under in the Water Polo game and lost the competition.

Results.

The results were as follows:— 50 Yards Free Style: 1, B. Rasmussen (Canton), 2, A. Donn (Y.M.C.A.), 3, W. Kerr (Y.M.C.A.) Time 27.1 seconds.

Long Plunge: 1, H. Frolic, 2 H. Hanaford, 3 S. Garrod. 50 Yards Breast Stroke: 1 Penfield (Canton), 2 G. Fowler (Y.M.C.A.), 3, W. Schreuder (Y.M.C.A.).

High Dive: 1, R. Morrison (Y.M.C.A.), 2 Schreuder (Canton), 3 E. Spik (Y.M.C.A.).

100 Yards Free Style: 1, B. Rasmussen (Canton), 2, Raiton (Y.M.C.A.), 3, Schreuder (Y.M.C.A.) Time 62.3 seconds.

Relay Race: 1, Y.M.C.A., 2 Canton.

Throwing the Polo Ball: 1, F. Read (Canton), 2, W. Kerr (Y.M.C.A.), 3 E. Tremlett (Canton).

50 Yards Back Strokes: 1, J. Penfield, 2 R. Langley, 3 E. F. Spik.

Water Polo, Y.M.C.A. 3, Canton 1.

FIRST HARBOUR RACE

The first harbour race of the season was swum off on Saturday when the Civil Servants' Bathing Club staged three races as a preliminary to their annual aquatic meeting which takes place next Saturday.

The results were:— 1,500 Metres Bampton Race (Open to Boys).

1, Ng Kam Cheung, 2, Chang Kit Choi, 3, Lok Kam Ming.

Men's Harbour Race.

1, Mak Wai Ming, 2, Chan Ping Hing, 3, Ki Sui Woon.

SINCERE'S "CHAIN" SALE

A GREAT SUCCESS

Sincere's "Chain" sale which has been in progress since Saturday last, has been again proved an enormous success. Sale records have been well above the average and the attendant crowds testify to the increasing popularity of this bargain week.

It argues well for the genuineness of these sales, that in these times of depression brisk business may still be enjoyed.

Although everyone is familiar with Sincere's special campaign, the idea of a Chain Sale is something new and perhaps needs explanation. Each department represents one link of the chain and the main object of the scheme is to link up the various departments so that patrons benefit by the chain sale throughout the entire store, at the same time permitting each department to enjoy special prominence at some period during the sale.

During the past week bargain prices have been confined solely to the ground floor. Very special reductions have been offered and coupons entitling to 10 per cent discount on any article sold elsewhere in the store have been given with each purchase.

The sale on the ground floor was the first link in the chain and so successful has the past week proved that it has been decided to continue with this scheme during this week on the second floor, consisting of silk, woollen, haberdashery, etc., where the same privilege will be extended elsewhere. Many new and attractive lines have been introduced to this floor. Special mention should be made of the satin and silk pyjamas and underwear which has just been received from the factory. Gift season is not so far away and it is not too early to think of friends abroad. The coming week will provide an opportunity to choose these gifts from a good selection and secure attractive prices. The sets are beautifully trimmed in net work, applique and hand embroidered and are cut on modern lines. Many people in the past have admired the beauty of the Swarovski needlecraft, while lamenting the old-fashioned cut of the garments. Now they will be pleased to learn that same can be procured in modern designs. A wide range of silk, cotton and seasonal materials will be displayed in the main window by the entrance to the store.

GALA NIGHT AT PENINSULA

SPECIAL TREAT NEXT SATURDAY

Owing to alterations under construction for the Grande Soiree de Gala to be held in the Rose Room on Saturday October 8 there will be no dinner dances during the week at the Peninsula Hotel.

It is certain that such a sacrifice is going to be largely compensated for to those who will attend the re-opening night.

Something very special is expected, never seen before in Hong Kong, and upon inquiries at the Hotel's office we learn that already nearly all the tables have been reserved, which should prove very satisfactory to the management who are always endeavouring to provide something smart and out of the ordinary.

opportunity to choose these gifts from a good selection and secure attractive prices. The sets are beautifully trimmed in net work, applique and hand embroidered and are cut on modern lines. Many people in the past have admired the beauty of the Swarovski needlecraft, while lamenting the old-fashioned cut of the garments. Now they will be pleased to learn that same can be procured in modern designs. A wide range of silk, cotton and seasonal materials will be displayed in the main window by the entrance to the store.

The new dollar store in Queen's Road continues to attract increasing patronage. Throughout the past week crowds besieged the store and the last recorded day's takings broke all previous records. Extra lines have been added and other bargains renewed both in quality and selection. The public will find many interesting additions to make their return visit well worth while.

ALLEGED THREAT TO MAJ. CASSEL

ANOTHER CHARGE AGAINST
DE LA SALA

INCIDENT IN CITY OFFICE

An additional charge of threatening Major L. Cassel was preferred against Mr. B. de la Sala who last week appeared before Mr. Wynne Jones on a charge of threatening Mr. Raymond O'Shea.

When la Sala was produced before the Magistrate on Saturday, he was represented by Mr. Leo D'Almada, Castro, senior.

Mr. D'Almada: I believe there is a second charge brought against the defendant under similar circumstances and if your Worship will allow me, I would like to plead not guilty to that charge also.

The Magistrate said that the plea to the other charge was one of "guilty" but that he had previously indicated to Mr. Sin that he would permit that plea to be withdrawn. Mr. D'Almada accordingly pleaded not guilty to both charges.

In regard to the new charge, Chief Detective Inspector Reynolds told the Magistrate that on September 21 in the afternoon, Major Cassel was in the office of the Shamoon Printing Press and the defendant was also there and there was a talk over money matters and it finished up with the defendant saying that he would "do him in."

This conversation carried on for some time. The same thing occurred again on the afternoon of the 26th over the same business and Major Cassel will say that on that occasion he saw the accused take from a drawer a revolver. The defendant, said Mr. Reynolds, did not threaten Major Cassel with the revolver in any way.

Mr. Wynne Jones: I am afraid Thursday afternoon is the nearest I can.

Appeal for Bail.

Mr. D'Almada: Will your Worship allow me to plead for bail. Apparently from the meagre opening at the last hearing it was suggested that the accused had used or produced a knife in conjunction with the alleged threat. Of course, I don't know what evidence is going to be adduced but of course the accused denies having used, produced or even showed a knife to the plaintiff. That being the case, the charge can be no more than one of ordinary assault.

Mr. Wynne Jones: It has been given by Mr. Reynolds in his opening that actually a knife was displayed.

Mr. D'Almada: We have no evidence of that at present.

Mr. Wynne Jones: I have no evidence of it at all either way.

Mr. D'Almada: I would ask your Worship to consider it this way. Here is a man charged with an ordinary assault and if your Worship will consider it in that light you would not object to bail. Bail is an inherent right of the citizen where the crime is not murder. In a case like this your Worship should exercise reasonable discretion. Make it a heavy bail if you like, to ensure his attendance here. I understand from the prosecution that the defendant has a violent temper and that it is feared that he might be involved in further trouble. His brother who is here and I myself will undertake to see that the defendant does not misbehave himself in any way. I would ask your Worship to fix \$1,000 bail and I think it can be produced. There is no question of the defendant going away.

Police Against Bail.

Asked if he would like to say anything, C.D.I. Reynolds said: The facts are as Mr. D'Almada has stated them but I cannot support his application for bail.

Mr. Wynne Jones: You still say that a knife was produced and a revolver was produced in the presence of Major Cassel?

Mr. Reynolds: That is the case. His Worship said he must adhere to his former attitude in regard to the question of bail. "I think you are taking a very big responsibility," he told Mr. D'Almada, "on behalf of the defendant and I don't think it is fair to yourself to say that he would not be involved in any further assault."

Mr. D'Almada: His brother will stand security for him. Double the bail if you like but I think it is very hard for this man to be in gaol.

Mr. Wynne Jones: Not good.

Mr. D'Almada then asked that (Continued at foot of next column.)

LINCOLNS ARRIVE TO-DAY

REGIMENT WITH FINE
RECORD

The 1st Battalion The Lincolnshire Regiment are expected to disembark from H.M.S. Suffolk sometime this afternoon, and will be billeted at Nanking Lines, Sham Shui Po Camp, until the departure of the present regiment, the Argyll and Sutherland Highlanders on H.M.T. Neoralia on October 4. The Regiment will probably stay here for at least two years and we take this opportunity of wishing them a very happy and successful stay in the Colony.

The Lincolns left home in 1920 and proceeded to Gibraltar where they spent two years. From there they were sent to Shanghai and have been there since November of last year. They now enter into the fourth year of their "twenty-one years foreign service."

In the old days when regiments were named after their Colonels, the Lincolnshire Regiment was known as the Earl of Bath's Regiment of Foot. They first saw service in the Low Countries under Marlborough in 1704 and were conspicuous in the campaigns of Hohenheim, Malplaquet, Ramillies and Oudenarde, which names we understand are inscribed on their Regimental Colours.

During the Great War there were no less than nineteen battalions in the regiment who fought in many places in the early days like Mons, Marne and Messines, not to mention their later service at Loos, Somme and Gallipoli.

The Officers.

The Officers now serving with the battalion in China are:—Lieut. Colonel E. J. de O. Boys, M.C., Commanding, Major J. A. A. Griffin, D.S.O., Second-in-Command, Lieut. F. W. Young, Adjutant, Lieut. G. H. King, Quartermaster, Major E. H. Impey, M.C., Major H. St. G. Thoyts, M.C., Capt. R. W. Cave-Orme, Capt. L. C. Crick, M.C., Capt. C. Pennack, Capt. H. M. Boxer, M.C., Capt. T. H. R. Riggs, D.C.M., M.M., Capt. C. T. Ingle, Capt. L. G. Dickinson, Lieut. P. Curran, A. U. Mackenzie, J. E. T. Pim, E. D. S. Powell, J. G. M. B. Gough, J. H. Hocquard, 2/Lieut. S. P. B. Bransbury, D. P. St. C. Roissier, A. Wall.

SIBERIAN MAILS TO-DAY

ANOTHER FIFTY-TWO BAGS

The Post Office announce that fifty-two bags of the "missing Siberian mail" will arrive here to-day on the a.s. President Wilson. The date of this mail is London, July 29.

In-view of the twelve bags which arrived yesterday on the a.s. Shantung and these fresh arrivals, it is generally expected that the balance of this overdue mail will arrive shortly.

Other transfers are:—Sub-Inspector Russell from Central to Wanchai, vice Police Sergeant Goddard to Yau-mat, vice Sub-Inspector Hynes to Sham Shui Po, vice Lance Sergeant Cordoux to Gough Hill, vice Acting Police Sergeant Baystings to Kowloon City, vice Lance Sergeant Estall to Lock Ma Chau, vice Acting Sub-Inspector Kirby to Sha Tau Kok, vice Lance Sergeant Wallingford to Central, vice Lance Sergeant Slater to Shauiwan, vice Lance Sergeant Clarke to Central.

Traffic Sergeant Brittain has been transferred from Central to Yau-mat Traffic Office, vice Traffic Sergeant Scrim who goes to Central.

the prosecution's case be taken but it was indicated that Mr. O'Shea was not available. The case for the prosecution will be taken this morning.

ROSARY CHURCH FEAST DAY

IMPRESSIVE SERVICES AND
PROCESSION

Yesterday being the Feast of the Rosary, the Patronal Feast Day of the Rosary Church, Kowloon, there were special church services, ending with Benediction of the Blessed Sacrament and a solemn Procession through the streets in the vicinity of the Church.

There were four Masses in the morning, the fourth, at 9.30 a.m., being a solemn Pontifical Mass at which His Lordship, Bishop H. Valoria, was Celebrant; Rev. Fr. Novat, Assistant; Rev. Fr. Francis, Deacon and Rev. Fr. Maestrini, Sub-Deacon.

The Evening Service commenced at 4.30 with Recitation of the Rosary, after which the long and colourful Procession formed up, later passing through Chatham, Austin and Kimberley Roads and Austin Avenue. Proceeded by the St. Louis Industrial School Band, the Procession was a most impressive one, and consisted of members of the various Societies and the Portuguese Band.

On the return to the Church, a sermon was preached by Rev. Fr. A. Graneli, the service ending with the Benediction of the Blessed Sacrament.

THE BISHOP DESIGNATE OF VICTORIA

MESSAGE TO THE DIOCESE

The Dean of St. John's Cathedral has received the following message from the Bishop-Designate of Victoria, Hong Kong:—

"Our sufficiency is of God." Will you pray for me, as I am praying for you that in all things we may know His will and have power to do it?

The Consecration is on October 28, the Day of Saint Simon and St. Jude. St. Simon was a Zealot (an advanced member of the Ku-mintang) who found the fulfilment of all his hopes in the kingdom of God. St. Jude wrote these words: "Mercy unto you and peace and love be multiplied"; and "Now unto Him that is able to keep you from falling and to present you faultless before the presence of His glory with exceeding joy, to the only wise God our Saviour be glory and majesty, dominion and power both now and ever—Amen." Those words are my prayer for you all.

I should like it if in every Church and Christian home throughout the Diocese there could be special intercessions made for the Diocese on that day. In addition to the Collect for the Day, will you use this old prayer—

O Holy Jesus,
Merciful Redeemer,
Friend and Brother
May we see Thee more clearly
May we love Thee more dearly
May we follow Thee more nearly
Day by Day.

[The Bishop Designate, the Rev. Ronald Hall, is to be consecrated in St. Paul's Cathedral on October 28, and to proceed to the Far East shortly afterwards.]

CATHEDRAL WEDDING

MISS MITCHELL AND MR.
C. ROBERTS

A very pretty wedding was celebrated between Miss Constance May Mitchell and Mr. Charles C. Roberts on Saturday, October 1, at St. John's Cathedral. The bride looked charming in a wedding dress of white satin, and she carried a bunch of ginger lilies. The bridesmaids, Miss Pamela Shaw and Miss Margaret Grogg, both looked very well in dresses of white organdy and white satin with ruching, and floral wreaths they carried posies of gladioli.

The service was solemnized by the Very Rev. Dean Swann, M.A., and Mr. J. R. Masson acted as "best man." The bride was given away by Mr. T. H. R. Shaw. The reception was held at the Hong Kong Hotel.

MAMAK HOCKEY SHIELD

LEAGUE COMMENCED ON
SATURDAY

ALL FAVOURITES WIN

With thirty entries in the Mamak Hockey League, the opening of the season was followed with particular interest. Three matches were decided on Saturday, the St. Andrews accounting for H.M.S. Phoenix, the Police, beating the German Club and the "Incognitos," a team of civilians, beating the R.A.S.C.

St. Andrew's v. Phoenix.

St. Andrew's accounted for the H.M.S. Phoenix in a fast match which gave them a four to one victory. For the winners, A.E.P. Guest, was an outstanding player. It will be recalled that for last season, Guest was a tower of strength in the ranks of the league winners, the Radio Sports Club.

On Saturday Guest scored twice in the first half for the winners, and then play slowed down in the second half until the sailors reduced the lead. Then the civilian team settle down to once again and scored two more goals before the final whistle was blown.

Incognitos v. R.A.S.C.

Three clear goals without reply was the result of this match. The Incognitos is a strong team of civilians consisting of talented players from clubs which are not keen on entering a team in the league. The resulting combination is a strong one and the Incognitos are sure to go a long way in the tournament.

The R.A.S.C. held their own in the first half of this game, but in the second half the "Incogs," combining well, scored three times before the final whistle was blown. J. Pinto drew first blood for the winners and was followed by C. C. Francis and W. A. Reed. The last named played a splendid game at centre half. Another good player is A. A. dos Remedios, one of the full backs in the winning team.

Police v. German Club.

Playing at Caroline Hill, the Police R.C. defeated the German Club by two goals to nil. The newcomers to the Tournament showed up surprisingly well and with the season more advanced they are sure to upset calculations. The Police team, on Saturday's showing, deserved their win, as they were more experienced and on the whole pulled together as a team much better than the German Club did.

Friendly Matches.

In a friendly match with the Military and Navy Choero at King's Park on Saturday afternoon, the Y.M.C.A. first eleven won by six goals to one, in an interesting match. W. J. Brown netted all six goals, thus securing the double "hat trick." Walters replied for the Choero. The losers, though outplayed, possessed many fast players.

Recreio Ladies Win.

At King's Park the Club de Recreio Ladies defeated the Y.M.C.A. Ladies by the only goal scored in a friendly hockey match. The "Y" ladies fielded only nine players, and the Recreio sportingly loaned them one of their members. Both teams decided to play the three-back game.

EXCITING YACHTING

CLOUDBURST AND 50-MILE
WIND DURING RACE

Marblehead, Mass., Aug. 12.—The large fleet competing in the second day of the Corinthian Yacht Club's midsummer series suffered considerable damage and several yachtsmen narrowly escaped drowning at the head of this afternoon, when a black thunder squall, accompanied by a cloudburst and a fifty mile wind, scattered the craft many miles from their courses, blew out the canvas on several boats and capsize others.

Leslie Rawding's launch Dorothen saved the skipper, Ed Griffin, and crew of the Winthrop Yacht Club 18-footer Wanderer while she was sinking.

K.B.G.C. CONCERT

ENJOYABLE AFFAIR ON
SATURDAY

A very enjoyable "al fresco" concert, arranged and produced by the Kowloon Bowling Club, was given at their own grounds on Saturday evening. The affair was held in the open air and extremely fine weather prevailed for the occasion. Of the many artistes appearing in the long and varied programme were a number who have not hitherto been heard on the concert platform, and an outstanding triumph for the club is the fact that all of these artistes were either members or the relatives of members of the institution.

It is very difficult to differentiate between any of the excellent items given, all being very well-chosen and ably rendered by the people concerned. Perhaps however special mention should be made of Mrs. E. W. Gardner for her splendid efforts, "There's a Land" and "Sally in our Alley." It is a long time since Mrs. Gardner was heard at local concerts, but that she still possesses a voice of charm and should therefore be heard here more often, is evident by the reception she received on Saturday evening.

Two other items more than deserving of the ovation they received were "Down in the Forest" and "The Road to the Isles" admirably sung by Mrs. J. S. Logan.

The comic element of the programme was supplied by Messrs V.C. Labrum and H. Nish who were extremely amusing and delighted the audience with their sketch "Roger the Lodger." As an encore they rendered the equally funny number "Rhymes." Mr. Nish made an excellent foil for the Robeyesque comedy of Mr. Labrum, for the portraying of which this artistic is well-known to local audiences.

Altogether it was a most enjoyable and delightful evening, and it is to be hoped that the committee of the Bowling Club will arrange similar evenings during the coming winter months.

The Programme.

An informal dance was held after the performance.

The full list of the artistes in the order of their appearance is as follows:—Mrs. W. Orr (Pianoforte Solo), Mr. C. Beat (Song) Mr. and Mrs. Lieb (Duet), Mrs. W. Hyde (Song), Messrs. E. Hogbin and T. Fergusson (Duet), Mrs. E. W. Gardner (Songs), Mr. J. Macaw (Song), The Misses Henderson (Character Dance), Mesdames Nish and Fergusson (Pianoforte Duet), Mr. J. Cornelius (Song), Mrs. J. Logan (Song), Messrs Labrum and Nish (Humorous Sketch), Miss D. Punchedon (Song). A humorous quartette was rendered by four of the men mentioned above and the concluding item of the programme was "Good Night" sung by all the artistes collectively.

CONTROL OF DANGEROUS DRUGS

LOCAL LAWS TO BE
CONSOLIDATED

The Gazette contains the draft of an Ordinance to amend and consolidate the law relating to dangerous drugs.

This legislation follows the Conference held at Geneva in 1931 for the purpose of supplementing the provisions of the International Opium Convention. As a result of the Geneva Convention (No. 2) it became necessary in England to pass, on March 24 this year, the Dangerous Drugs Act, 1932, amending the Dangerous Drugs Act, 1920, the Dangerous Drugs and Poisons (Amendment) Act, 1923, and the Dangerous Drugs Act, 1925, on which the local legislation is mainly founded.

Consequently it becomes necessary to amend the two local Dangerous Drugs Ordinances. This Ordinance therefore consolidates Ordinances No. 22 of 1923 and No. 4 of 1928 with amendments suggested by the Dangerous Drugs Act, 1932, and by the Secretary of State's Circular Despatch of July 22, 1932.

THE LYTTON REPORT

If the brief summary of the LYTTON Report cabled by Reuter can be taken as a fair reflection of a lengthy and comprehensive document, the recommendations made are likely to cause disappointment to the Chinese people. The Commission's attitude appears to be summarised in one sentence, "if the present situation could be modified to satisfy these conditions and embody these ideas, China and Japan would have achieved a solution of their difficulties which might be made the starting-point of a new era." These conditions include the demilitarisation of Manchuria, the securing of Japanese and Russian treaty "rights," and the creation, with foreign help, of a system of local government that still preserves the integrity of China and her sovereign rights over the Province. There is no question of "marching orders for Japan," or a sweeping condemnation of either side. The Commission follows the principle that having analysed the facts—a most difficult task—the only thing to do is to make the best of the situation. The alternative is to settle by ordeal of battle.

The Report does not take into cognisance what may be called Chinese Nationalism. Perhaps such a task was impossible. The suggestion seems, however, to be that the Manchurian people do not greatly care who governs them, provided they get peace and security. Evidently no burning desire either for the return of CHANG HSUEH LIANG or for the creation of Kuomintang Government, with responsibility to Nanking has been observed by the Commission. It is obvious, in fact, that Manchuria, under the régime outlined by the Commission, would soon be a vastly different place from the rest of China. The struggle is whether the Three Eastern Provinces shall remain wedded to China, for better or worse, or whether some degree of separation—to be permanent or temporary according to circumstances—be arranged. The Nationalist Government, of course, desired to see Manchuria fully within the fold of the Republic. Such was not the position during the régime of CHANG TSO LIN, but an advance in that direction was made by his son's nominal submission to the Kuomintang and his more active participation in affairs within the Great Wall. The outburst against CHANG HSUEH LIANG, reflect, of course, a desire to effect a real control over Manchuria from Nanking. The implication of the Report is a return to the constitutional status of CHANG TSO LIN, but for the whole position to be crystallised by Treaties. China would control the Foreign policy and certain of the taxes and the postal service. In other words Manchuria would have something analogous to Dominion status in the British Empire.

The most drastic proposal is the demilitarisation of Manchuria, in total order being secured by a locally raised gendarmerie and external security by treaties signed with all Powers interested in Manchuria. This gendarmerie, it is suggested, should be foreign trained, and managed something on the lines of the Chinese Maritime Customs. The aim of the recommendations is good government, so the Report naïvely remarks. A Manchuria so administered might flourish and prosper, or again it might be rebellious, as are many who are made "to be good" according to another person's idea of the subject. If Manchuria did settle down to such a régime, with the advantages of peace, security, foreign tutelage, and investment of foreign capital an era of progress in the vastly rich area would set in, widening the gulf between Manchuria and the rest of China with the inevitable result. But do the Manchurian people want the fleshpots of Japan, or to continue forty years wandering in the wilderness?

The LYTTON Commission is fully aware of this aspect of the problem and urges that a solution of foreign co-operation with the Chinese Government be inaugurated. Will in fact, the rulers of China, during the period of political tutelage, advocated by Dr. SUN YAT SEN, accept a fuller degree of "help" from the West? Before the rise of Nationalism such a scheme might have been feasible, but to-day China's attitude is that she prefers to manage things in her own way, and that she is not altogether trustful of foreign help.

they get peace and security. Evidently no burning desire either for the return of CHANG HSUEH LIANG or for the creation of Kuomintang Government, with responsibility to Nanking has been observed by the Commission. It is obvious, in fact, that Manchuria, under the régime outlined by the Commission, would soon be a vastly different place from the rest of China. China would control the Foreign policy and certain of the taxes and the postal service. In other words Manchuria would have something analogous to Dominion status in the British Empire.

The most drastic proposal is the demilitarisation of Manchuria, in total order being secured by a locally raised gendarmerie and external security by treaties signed with all Powers interested in Manchuria. This gendarmerie, it is suggested, should be foreign trained, and managed something on the lines of the Chinese Maritime Customs. The aim of the recommendations is good government, so the Report naïvely remarks. A Manchuria so administered might flourish and prosper, or again it might be rebellious, as are many who are made "to be good" according to another person's idea of the subject. If Manchuria did settle down to such a régime, with the advantages of peace, security, foreign tutelage, and investment of foreign capital an era of progress in the vastly rich area would set in, widening the gulf between Manchuria and the rest of China with the inevitable result. But do the Manchurian people want the fleshpots of Japan, or to continue forty years wandering in the wilderness?

The LYTTON Commission is fully aware of this aspect of the problem and urges that a solution of foreign co-operation with the Chinese Government be inaugurated. Will in fact, the rulers of China, during the period of political tutelage, advocated by Dr. SUN YAT SEN, accept a fuller degree of "help" from the West? Before the rise of Nationalism such a scheme might have been feasible, but to-day China's attitude is that she prefers to manage things in her own way, and that she is not altogether trustful of foreign help.

Fishing Line Strength.

The story of the saving of a drowning boy by means of a fishing line which was thrown to him surprised those who do not realise its strength. Some years ago a contest took place in an English swimming pond between a swimmer and an expert angler armed with salmon tackle, the line being fastened to a sort of harness worn by the man representing the fish.

Though the swimmer was also an expert, the angler played him so effectively that, instead of breaking away, he was very soon brought exhausted to the side.

Mussolini must have recalled many memories of his own soldier days when, during the Italian manoeuvres in Central Italy over the week-end, he left his car to march with the men of the 23rd Infantry Regiment.

As soon as war was declared Mussolini applied as a volunteer. His application was at first rejected, and he had to wait until his class was called to the colours.

The trial of Kwok Chiu and Tee On, charged with murdering one, Tam Tei, in French Street, West Point, on August 27, was continued before Mr. A. G. Wise at the Criminal Court yesterday. The new jury empanelled consisted of Messrs. W. Helms, M. Jensen, W. Glendenning, H. A. L. Olden, W. A. O'Hara, G. Gittins and H. J. Colahan. After hearing all the evidence, the jury found the first accused guilty of manslaughter and the second not guilty. The second man was discharged. In passing sentence on the first, the Magistrate, Mr. Bevan, said that in their discretion had found him guilty of manslaughter. He was not cavilling at the verdict at all but at the same time he had to take care that this offence did not become too common. The prisoner would be sentenced to seven years' hard labour. Forty-two Wounds.

He began his fighting career as a private soldier in the Bersaglieri, Italy's renowned light infantry, and took part in several front-line engagements. His colonel offered him a berth behind the lines with the object of writing the history of the regiment. He answered: "I came here to fight, not to write."

He never got beyond the rank of sergeant, because, he says, of his Socialistic past. The explosion of a trench-mortar inflicted forty-two wounds, of which three were particularly serious.

"He Will Go Far."

While he was lying in the field hospital at Ronchi, Sergeant Mussolini was visited, by King Victor Emmanuel.

"Reserve your kind words for the other wounded who are dying in this hospital, your Majesty," said Mussolini. "I have to get well, because I still have to fight for my country."

Recording this incident, Signor Vittorio de Fiori, Mussolini's biographer, says that as the King left the bedside he was heard to murmur, "That man will go very far."

Britain's Tourist Traffic.

The July statistics of the British Travel Association make interesting reading. The United Kingdom, during the month, entertained more than 40,000 visitors from countries abroad outside the Empire. More than a third came from the United States, where, despite bad times, cheaper fares proved a great attraction. France came next with 7464, Germany with 4363, and then came Dutch, Belgian, Danish, and Swiss visitors. Most of the 2103 Scandinavians came first to Scotland—there has always been a close affinity between Scotland and these near neighbours.

Callow Burglars.

Among the valuable things stolen by the burglars who raided Hinchbrook, Lord Sandwick's seat near Huntingdon, was an ink stand that has great historical and sentimental value to the family.

It is a huge stand of silver, dating from the seventeenth century, and it bears the names of every

holder of the title since the days of Charles II. When each Lord Sandwick comes into possession his name is engraved on the stand. The problem of the ink evidently did not trouble the thieves, for it was spilt all over the beautiful in-land table in the library on which the stand lay, and, has done it irreparable damage.

Pussyfoot's Case.

Bootleggers and speak-easies were in existence before we had prohibition, so also were blind pigs, blind tigers, kitchen harroons and other forms of illicit selling, says a stout upholder of prohibition in the United States. They were all born of attempts to regulate the liquor business. They were all means of avoiding regulations.

The licensing of saloons bred a large crop. They were means of avoiding the paying of a license. Sunday closing bred another crop. They all sold liquor on Sunday. Early closing bred another crop. They all sold after hours. Prohibiting the sale to minors or to men already drunk bred still another crop.

There are only two ways of stopping the illicit sale of liquor. One is to enforce the laws rigidly and efficiently. The other is to have no law of any kind for the regulation of the liquor trade. If there are any who believe in the unregulated sale of liquor, they are not saying much about it. Unless we are willing to try that method of eliminating the speak-easy and the bootlegger, we had better try the other method, namely, enforcement.

FUTURE OF MANCHURIA?

DEMILITARISATION OF MANCHURIA ADVOCATED

FOREIGN HELP IN LOCAL ADMINISTRATION RECOMMENDED

THE most drastic proposal contained in the brief summary, as cabled by Reuter, of the Lytton Report is the demilitarisation of Manchuria. It is proposed to secure internal order by the organisation of a locally raised gendarmerie which should be foreign trained. The conditions included in the Report include the securing of Japanese and Russian treaty "rights," and the creation, with foreign help, of a system of local government.

The recommendations contained in the Report are considered at Geneva to be distinctly favourable to the Chinese case.

RUSSIAN INTERESTS MUST BE CONSIDERED

[THROUGH REUTER'S AGENCY.]

SHANGHAI, Oct. 2. After seven thousand words in debating the rights and wrongs of China and Japan and the events in Manchuria prior to September 18, 1931, and in Manchukuo, Shanghai and Tientsin since then, the summary of the Lytton Report outlines the general principles to which any satisfactory solution should conform, and points out:—

1. That both China and Japan are entitled to claim the same consideration for a solution from which both did not derive any benefit and would not be a gain to the cause of peace.

2. To make peace between the two neighbouring countries without regard to the interests of the third party (Russia) would be neither just, wise nor in the interests of peace.

3. Any solution should conform to the provisions of the League Covenant, the Paris Pact and the Nine-Power Treaty.

4. The rights and interests of Japan in Manchuria cannot be ignored and any solution which failed to recognise them and take into account also Japan's historical associations therewith, would not be satisfactory.

5. A re-statement of the respective rights, interests and responsibilities of both countries in Manchuria in the new treaties (which shall be part of the settlement by agreement) is desirable, if future friction is to be avoided and mutual confidence and co-operation restored.

6. As a corollary it is necessary that provision should be made for facilitating the prompt settlement of minor disputes as they arise.

7. The Government of Manchuria should be modified to secure consistency with the sovereignty and administrative integrity of China a large measure of autonomy designed to meet the local conditions and special characteristics of the Three Eastern Provinces. The new civil regime must be so constituted and conducted as to satisfy the essential requirements of good government.

8. The internal order in Manchuria should be secured by an effective local gendarmerie force and security against external aggression should be provided by the withdrawal of all armed forces other than the gendarmerie and by the conclusion of a treaty of non-aggression between the countries interested.

9. For the purpose of encouragement of Sino-Japanese economic rapprochement a new commercial treaty between the two countries is desirable. The treaty should aim at placing Sino-Japanese commercial relations on an equitable basis, bringing them into conformity with their improved political relations.

10. Since the present political instability in China is an obstacle to friendship with Japan and an anxiety to the rest of the world, as the maintenance of peace in the Far East is a matter of international concern, and since the conditions enumerated above cannot be fulfilled without a strong central government in China, the final requisite for a satisfactory solution is temporary international co-operation in the internal reconstruction of China as suggested by the late Dr. Sun Yat Sen.

STARTING POINT OF NEW ERA?

The summary remarks that if the present situation could be modified to satisfy these conditions and embody these ideas, China and

Japan would have achieved the solution of their difficulties which might be made the starting point of a new era of close understanding and political co-operation. If such rapprochement is not secured, no solution can really be fruitful.

The Commission then suggests that if China and Japan agree to discuss a solution along the lines indicated, an advisory conference might be summoned as soon as possible for the purpose of recommending detailed proposals for the constitution of a special regime for the administration of the Three Eastern Provinces.

It is suggested that the conference might consist of a Chinese representative, a Japanese representative and two delegations representing the local population; one selected in the manner prescribed by the Chinese Government, and one by the Japanese Government.

If agreed to the conference might secure the assistance of neutral observers and any unagreed points would be submitted to the League Council simultaneously. Chinese and Japanese issues should be discussed separately.

The Commission suggests that the results of these discussions and negotiations should be embodied in four separate instruments:—

1. A declaration by the Chinese Government constituting a special administration for the Three Eastern Provinces in the terms recommended by the advisory conference.

2. A Sino-Japanese treaty dealing with Japan's interests.

3. A Sino-Japanese treaty of non-aggression and non-interference for mutual assistance.

4. A Sino-Japanese commercial treaty.

The Commission then indicates the form in which the four above-mentioned instruments might be put and the various points which they might settle.

The declaration would deal with such questions as the powers reserved to the Chinese Government in Manchuria, the organisation of the gendarmerie and the appointment of foreign advisers in Manchuria.

It is suggested that the powers reserved to the Central Government should be:—

1. The control of general treaty and foreign relations not otherwise provided for, it being understood that the Central Government would not enter into any international engagements inconsistent with the terms of the declaration.

2. The control of the Customs, Post Office, the Salt Gabelle and possibly the administration of stamp duty and wine and tobacco taxes, the advisory conference determining the equitable division of the net income of those revenues between the Central Government and the Three Eastern Provinces.

3. Power of appointment (at least in the first instance) of the Chief Executive of the Government of the Three Eastern Provinces in accordance with the procedure laid down in the declaration. Vacancies would be filled in the same way or by some system of selection in the Three Eastern Provinces to be agreed to by the advisory conference and inserted in the declaration.

Government of the Three Eastern Provinces.

5. All additional powers agreed upon by the advisory conference. All other powers would be vested in the autonomous Government of the Three Eastern Provinces.

It is suggested that the special gendarmerie should be organised with the collaboration of foreign instructors, "which would be the only armed force within the Three Eastern Provinces. Its organisation, when completed, should be followed by the retirement from this territory of all other armed forces including any special bodies of police or railway guards, whether Chinese or Japanese."

AIMS OF SINO-JAP. TREATY

The Report states that the Sino-Japanese treaty dealing with Japanese interests would have to deal principally with certain economic rights of Japanese nationals and railway questions. The treaty's aims should be:—

1. To free the participation of Japan in the economic development of Manchuria which would not carry with it the right to control the country either economically or politically.

2. The continuance in being of such rights as Japan now enjoys there.

3. The extension to the whole of Manchuria of the right to settle on and lease land, coupled with some modification of the principle of extrajurisdiction.

4. An agreement regarding the operation of railways.

A DEMILITARISED ZONE

The Sino-Japanese treaty of conciliation, arbitration, non-aggression and mutual co-operation would provide for a board of conciliation and an arbitration tribunal.

JAPANESE CRITICISM

[THROUGH REUTER'S AGENCY.]

TOKYO, Oct. 2. Broadly speaking the main criticism of the Lytton Report is that it is unduly confined to Manchuria, and too little devoted to China and the Far East generally.

The main points criticised are the assertion that it is Japan's contention that her special position in Manchuria is incompatible with the Nine Power Treaty, and the assertion that the blowing up of the railway on the night of September 18, 1931 was insufficient to justify military action, and that her action thereafter overstepped the bounds of self-defence.

A Foreign Office spokesman emphasised that Japan never would permit interference by a third party in the settlement of the Manchurian dispute, nor agree to the suggestion of autonomy, now that Manchukuo had been recognised. "He said that the report 'contains much that is unfair to Japan, but nothing unfair to China,' and declared that the Government would strongly reject the contention that the Manchurian independence movement was instigated and supported by the Japanese General Staff."

In concluding, he intimated that Japan would confine her statement to refuting and rectifying misstatements of fact and mistaken ideas in the first eight chapters of the Report.

Excitement at Nanking

SHANGHAI, Oct. 1. Excitement at Nanking, Peiping and Tokyo is reaching fever heat as the hour of the publication of the Lytton Report draws near. In Tokyo, where the report was delivered to the Foreign Office last night, 38 Foreign Office officials, assisted by 80 typists, are translating and copying the document, while in Peiping, papers usually not appearing on Mondays are arranging to publish special editions.

The Lytton Report reached the Ministry of Foreign Affairs at 7 p.m. on Friday and the work of translation continued throughout the night and during yesterday, being completed by 7 p.m. yesterday evening. This report from Nanking reached here early this morning.

Fixing Its Policy.

GENEVA, Oct. 1. The Committee of Nineteen met this morning publicly, to consider Dr. W. W. Yen's request for the limitation of the extension of six months' delay granted under Article XV of the League Covenant for an Assembly report on the Chinese appeal.

The Japanese recognition of Manchukuo was severely criticised by M. Benes, who revealed that energetic measures had actually been considered by the League as a result of Japan's action in that direction.

Dr. Yen, besides asking for a limitation of the extension of the time limit, requested the Committee to take action to prevent Japan from profiting by any further delay to aggravate the situation.

Mr. Hymans, presiding, decided to take the two points into consideration separately, and said as regards the question of delay there had been several resolutions passed by the Assembly "urging the Japanese Government to take action."

The summary concludes that there are the suggestions and considerations submitted by the Commission for consideration by the League Council, the essential point being that negotiations should be begun (Continued on next column.)

BRITISH PRINCES IN SWEDEN

GIVEN A TUMULTUOUS WELCOME ON ARRIVAL

[THROUGH REUTER'S AGENCY.]

STOCKHOLM, Oct. 2. THE capital was hedecked with flags to greet the Prince of Wales and Prince George, who arrived today on a visit to King Gustav. Every member of the Swedish Royal family now in Stockholm, including Princess Ingrid, was present at the station to receive the Princes.

A tumultuous welcome was accorded to the British Princes by crowds en route to the y. see.

CHINESE OVERWHELM DEFENDERS

[THROUGH REUTER'S AGENCY.]

HARBIN, Oct. 1. REFUGEES from Manchuria state that railway guards who recently dispersed a Manchukuo garrison force had occupied the Japanese Consulate after repeated attacks, wherein they used bombs and machine guns and stokes mortars.

The defenders put up a stubborn fight but eventually were overwhelmed. The fate of the Japanese Consul and his staff and the gendarmes who were protecting the Consulate is not known.

According to information received by the C.E.R. office, 68 Japanese were killed at Manchuli, three at Puhatu, while nine were killed and five wounded at Hailar.

The Lytton Report reached the Ministry of Foreign Affairs at 7 p.m. on Friday and the work of translation continued throughout the night and during yesterday, being completed by 7 p.m. yesterday evening. This report from Nanking reached here early this morning.

Fixing Its Policy.

GENEVA, Oct. 1. The Committee of Nineteen met this morning publicly, to consider Dr. W. W. Yen's request for the limitation of the extension of six months' delay granted under Article XV of the League Covenant for an Assembly report on the Chinese appeal.

The Japanese recognition of Manchukuo was severely criticised by M. Benes, who revealed that energetic measures had actually been considered by the League as a result of Japan's action in that direction.

Dr. Yen, besides asking for a limitation of the extension of the time limit, requested the Committee to take action to prevent Japan from profiting by any further delay to aggravate the situation.

NEW MINISTER OF MINES

MR. ERNEST BROWN APPOINTED

[REUTER AND BRITISH WIRELESS.]

LONDON, Sept. 30. WITH the exception that no one has been appointed to succeed Mr. Graham White as Assistant Postmaster-General, the new Ministerial appointments were completed to-day.

Mr. Ernest Brown (National Liberal) becomes Minister of Mines, vice Mr. Isaac Foot.

Mr. Geoffrey Shakespeare (National Liberal) becomes Parliamentary Secretary to the Ministry of Health, vice Mr. Ernest Brown.

Sir George Penny (Conservative) who has been appointed one of four new Whips, becomes Comptroller of the Royal Household.

Sir Victor Warrander (Conservative) previously one of the Junior Lords of the Treasury, becomes Vice-Chamberlain of His Majesty's Household.

Mr. James Blinell (National Liberal) becomes Junior Lord of the Treasury.

Dr. Morris Jones (National Liberal) has been appointed an Assistant Whip (unpaid).

Simone Liberals.

Mr. Ernest Brown, the new Minister of Mines, has sat for Leith since 1927. He is a member of the Simon group, and took an independent line before definitely dissociating himself from the Liberal Parliamentary Party in 1930. He was for some months a member of the Liberal "Shadow Cabinet," and was one of the Liberal representatives on the three-party conference on unemployment insurance. From 1923 to 1924 he was Liberal member for Rugby. He is a Baptist lay preacher and a Brotherhood worker.

Mr. Geoffrey Shakespeare, the Parliamentary Secretary to the Ministry of Health, is secretary of the National Liberal group under the chairmanship of Sir John Simon. He was formerly private secretary to Mr. Lloyd George. When the National Government was formed, he became Parliamentary private secretary to the Minister of Transport and later a Lord Commissioner of the Treasury. He is a son of the late Rev. J. H. Shakespeare, and is a journalist and barrister.

Sir George Penny, Comptroller of His Majesty's Household, was for many years in business in Singapore. In the last Conservative Government, he was a Lord Commissioner of the Treasury, an office which he retained when the National Government was formed. He was in 1923 Parliamentary private secretary to the Financial Secretary of the War Office. He has represented Kingston-on-Thames since 1923.

LORD INCHCAPE'S ESTATE

VALUED FOR PROBATE AT £552,000

[THROUGH REUTER'S AGENCY.]

LONDON, Sept. 30. [THE late Lord Inchcape, famous shipping magnate left, excluding real estate, considerable unvested personal estate in Britain, which has been provisionally valued for probate at £552,000.

necessity of hastening the procedure. The Council undertook to treat the matters with the utmost possible dispatch.

As the Council now has decided to wait until the week beginning November 14 before considering the Lytton Report, he felt the Committee's proper procedure would be to wait until the Council had reported on the matter and then he would immediately convene the Committee, which would consider the Council's report and recommendations, and draft a report to the special meeting of the Assembly.

A Broken Promise.

As regards action to prevent aggravation of the Manchurian situation, Mr. Hymans said both the Chinese and Japanese Governments had solemnly promised to do nothing which was liable to prejudice the situation. Nevertheless, the Japanese Government had recognised Manchukuo.

Mr. Hymans proceeded to read Mr. E. de Valera's statement of regret at this action, which was calculated to compromise the efforts of the League, and added that members of the Committee had unanimously desired to associate themselves with this expression of regret.

M. Benes declared the Committee had considered the question of more energetic measures but they renounced them in favour of a more reasoned course. Events had proved their confidence was misplaced, however.

TAIKOO STEAMER ASHORE

FIRMLY WEDGED BETWEEN ROCKS

[THROUGH REUTER'S AGENCY.]

WEIHAIWEI, Oct. 2. THE Taikoo steamer, Chusan, bound from Chefoo to Shanghai, sometime during the night ran ashore near the outer island, one mile due east of Half Moon Bay Bungalows. It looks as if she is firmly wedged on a reef with huge rocks both on sides almost touching the vessel.

CHELE PARTITION

ANTOFAGASTA CLAIMS INDEPENDENCE

[THROUGH REUTER'S AGENCY.]

LONDON, Sept. 30. POLITICAL conditions in South America appear to be in a complete state of chaos. There is unrest everywhere. The undeclared war between Paraguay and Bolivia has been resumed with greater severity than before. Chile appears to be split in two.

The only comforting note is sounded from Rio de Janeiro, where there is every hope that the civil war will be brought to an end shortly by agreement. The revolt in the San Paulo State, where fierce fighting has been going on for over a month, appears to have come to an end, without a decision having been forced by either side.

An independent government has been proclaimed in the Chilean district of Antofagasta, which has an area of 47,018 square miles and a population of about 100,000.

BOLIVIA WAR.

In the Gran Chaco (the Green Hell), fierce fighting is reported to be proceeding between the Bolivian and Paraguayan forces. Both Paraguay and Bolivia claim to have been victorious in the engagements.

The Bolivians deny the Paraguayan report of the capture of Fort Bouqueron.

CLOUD BURST IN CALIFORNIA

THIRTY PEOPLE REPORTED KILLED

[THROUGH REUTER'S AGENCY.]

BAKERS' FIELD, California, Oct. 2. THIRTY people were killed as the result of a cloud-burst last night which sent a foaming forty-foot high wall of water roaring through the Tehachapi Pass. It struck a railway trestle bridge at Woodford, hurling a train into a canyon. The water swept on and overwhelmed a petrol station, drowning the man in charge, his wife and two children. It also enveloped several customers.

CABINET MEETS AGAIN

CONSIDERS INDIA AND DISARMAMENT

[BRITISH WIRELESS SERVICE.]

RUSSIA, Sept. 30. A FURTHER Cabinet meeting was held to-day at which it is understood, questions relating to India and disarmament were considered. No further meeting of the Cabinet is expected until the week after next.

The Premier left London to-night for the North and will be away until the end of next week.

The Foreign Secretary, Sir John Simon, is returning to Geneva on Sunday and will fly all the way in an Air-Force machine.

GANDHI THREATENS TO RESUME HIS FAST

GIVES SIX MONTHS GRACE TO REMOVE CASTE STIGMA

[THROUGH REUTER'S AGENCY.]

ALHAMBRA, Oct. 1. [THE threat to resume his fast if the untouchability stigma is not removed within six months from caste to which it is now applied, is reported to have been made by Gandhi to his followers. Gandhi has only just completed a seven-day fast which, for a time, it was feared would prove fatal.

GREEK 'QUAKE' DISASTER

BRITISH FLEET OFFER

[BRITISH WIRELESS SERVICE.]

RUSSIA, Sept. 30. [THE British Chargé d'Affaires at Athens, Mr. Cavendish Benkin, today conveyed a message from his Government to the Greek Premier, M. Venizelos, stating that if the assistance of the British Mediterranean Fleet was required to help in the rescue work in any other area devastated by the earthquakes, the request could be addressed direct to Admiral Chatfield. The Greek Premier expressed his deep appreciation and gratitude for the help already given by the British Navy. Further slight shocks were to-day felt in the Chalcidice region.

NEW YORK FERRY EXPLOSION

OWNER CHARGED WITH MANSLAUGHTER

[REUTER'S AMERICAN SERVICE.]

NEW YORK, Sept. 30. ALEXANDER FORSTHE, the captain and owner of the ferry boat Observation which blew up in the East River on September 9 with an appalling loss of life among her workmen-passengers, has been indicted by a Grand Jury for manslaughter in the second degree.

BARBUDA HIT BY HURRICANE

CONSIDERABLE DAMAGE REPORTED

[BRITISH WIRELESS SERVICE.]

RUSSIA, Sept. 30. A TELEGRAM from the Office Administering the Government of the Leeward Islands to the Colonial Secretary, dated September 29, reports that considerable damage was done in Barbuda by the hurricane on September 25. All Government buildings sustained damage, some being partially unroofed. Over sixty private houses were more or less demolished. There was no loss of life.

SCOTSMAN'S TITLE TO £2,000,000

FORTUNE MADE BY LONG-DEAD BROTHER

LONG LEGAL FIGHT ENDED

A Scotsman's title to a Patagonian estate, variously valued at sums up to £2,000,000, has just been confirmed by a civil court in Buenos Aires. He is Mr. John Munro, of Belkirk, whose millionaire brother died in the Argentine 32 years ago.

The civil court's decision brings to an end a long legal battle over the vast Patagonian estate of the late Mr. Donald Munro, who founded the Patagonian frozen meat industry.

Donald Munro emigrated to Patagonia as a shepherd boy 45 years ago. He died 19 years afterwards, but for some time his relatives in Scotland were unaware of his death.

Legal documents from Scottish registers dating back to 1871 were submitted to prove the legitimacy of Mr. John Munro as claimant. The claim was contested by the Argentine Council of National Education, who would benefit in the absence of an heir, but was admitted by the Argentine Government earlier this year on the advice of the Fiscal Court at Buenos Aires.

The estate, which is valued at various sums up to £2,000,000, is at present administered by Mrs. San Julian Sheep Farming Company and the Education Council.

THE MOJI BRIDGE

MAY BEGIN WORK IN 1934

TOKYO.—Dr. Hachiro Miura, an expert of the Home Office, who is in charge of the investigation and engineering work in regard to the projected building of a bridge across the Moji-Shimonoseki strait, is quoted as saying that the basic investigation cost, amounting to ¥30,000 has already been voted. In his opinion, this basic investigation will be finished about March next year, and the next year will be spent on planning. If the preliminary work goes smoothly, the work of building the bridge will be taken in hand in the year 1934. Some people talk of great technical difficulties attending the work, but Dr. Miura does not share their view. There are instances in the world, where suspension bridges of this magnitude have been built.

VOLUNTEERS WIN KOWLOON MATCH

HALL-THOMPSON BAT'S WELL

The Indian R.C. had no difficulty in defeating the Royal Navy in the Senior Division on Saturday, but their junior team went down to the Navy's second eleven by six wickets.

The feature of the second game was the bowling strength of the Indian R.C. who will again be strong contenders for the premier position.

M. R. Abbas was again the outstanding bowler for the Indian second team, but their showing on the day was not good enough to beat their opponents.

I.R.C. BEAT NAVY

The I.R.C., champions of the senior league last year, engaged the Royal Navy at Sookunpoo on Saturday, and had a comfortable win by 98 runs.

The home team batted first, and was given a good start by their opening pair, S. A. Ismail (24) and A. H. Rumjahn (33). The succeeding few batsmen failed, however, and nine wickets were down for 85 runs when A. Bakar and A. A. Rumjahn were associated in a partnership which produced 65 runs. Bakar played a good innings of 35 not out and A. A. Rumjahn contributed 31.

Against the strong Indian attack, the Navy were all out for 52 runs. At one stage of the game, they had lost four wickets for only five runs. Lt. Watson, 21, and Lt. Villiers, with 16, were the only batsmen to put up any resistance, each claiming six.

Pereira captured three wickets for 16 runs and Baker three for only six.

VOLUNTEERS v. KOWLOON

The Kowloon Cricket Club were in a good position at the conclusion of the first day's play in their two-day fixture with the Hong Kong Volunteers on Saturday. They batted first and compiled 184 runs, and the Volunteers replied with 46 for the loss of two wickets when stumps were drawn.

R. O. Fincher and A. T. Lay both batted well for 50 and 32, re-

spectively, and gave their side a good start. Other contributions were G. C. Burnett (26) and F. Goodwin (22).

Hall-Thompson, a new-comer, bowled well to capture four wickets for 40 runs, while Beck also claimed four victims for 51 runs.

At the close of play, the Volunteers had scored 49 for two wickets, E. J. R. Mitchell being not out with 20.

Play was resumed at 11.30 a.m. yesterday with the not out batsmen Mitchell 20, and Witham 10. Mitchell was eventually dismissed for a luckily compiled 71, while the only other outstanding scorer was Davis with 10 not out. The innings closed after the tiffin interval for 174 runs, 10 runs behind the K.C.C.

The K.C.C. commenced their second innings at 3.10 p.m. and at 4.30 p.m. the innings was declared close with 133 runs for 5 wickets. This left the Volunteers 144 runs to win and seventy minutes in which to obtain them.

Thanks to a vigorously compiled 50 runs by Hall-Thompson, together with a pluckily made 30 runs by A. D. Lowson the Volunteers gained a victory by 4 wickets, with three minutes to spare.

The fielding generally on the part of K.C.C. was below standard, no less than eight or nine chances being missed in the field. This, however, does not detract from the Volunteers' meritorious victory.

I.R.C. 2ND v. NAVY

Last year's champions of the Junior Shield gave a deplorably weak exhibition of batting which lost them the match against the Navy second string at King's Park on Saturday.

The Navy passed this score for the loss of four wickets, but eventually could only make 98. Lt. Crossfield's five wickets for 14 runs represented the best bowling of the match.

EXIT DON BRADMAN

NOT TO PLAY IN TEST MATCHES

[THROUGH REUTER'S AGENCY.]

LONDON, Oct. 1. DON BRADMAN, the Australian cricketer, has stated that he is unable to give the Australian Board of Control the required assurance that he would not write newspaper articles of first-class matches, and therefore he will not be available for the Test Matches.

The Associated Newspapers have offered to release the famous cricketer from his contract, but he has refused the offer saying that he must do the honourable thing by his benefactors.

The Board refuse to budge from their resolution which states that no one but bona fide journalists shall play in the Tests. It appears that there is no loophole and Bradman's name will be missing in the Tests against D. R. Jardine's touring M.C.C. eleven.

AUSTRALIAN FILMS

TO-DAY AT THE KING'S

More than 5,000,000 bushels of ap-
ples, 3,000,000 of oranges, 2,000,000
of bananas, 1,000,000 of pears, and
nearly 2,000,000 of peaches and ne-
tarines, besides grapes, apricots,
cherries, lemons, grapefruit, pine-
apples, plums, strawberries, rasp-
berries, almonds, olives, figs, man-
goes, paw-paws, custard apples and
guavas, are grown in Australia,
and sold at prices within the reach
of all. Their total production
value is more than £8,000,000 a year.
Owing to the equable climate, these
fruits are all grown out of doors.

Fruit canning is one of Australia's
important industries, and
canneries are established in each of
the States. The principal fruits
canned are apricots, pears, peaches
and pineapples. The main produc-
tion of canned fruits is carried out
on the irrigation areas of New
South Wales and Victoria. Australia's
average annual production is
33,000,000 30-oz. tins, of which
9,000,000 tins are exported. The
fruit is processed under rigid official
supervision.

One of a series of Australian
films, showing at the King's Theatre
between 11 a.m. and 1.45 p.m.
to-day and to-morrow depicts the
Murrumbidgee and Murray fruit
areas of Australia.

\$5,000,000 FILM COMBINE

WORLD MARKET FOR BRITISH FILMS.

One of the greatest successes ever
achieved by an English film com-
pany was announced last month,
at a dinner at the Dorchester Hotel
by Mr. Hubert T. Marsh, manag-
ing director of British and Domini-
on Films.

He stated that an agreement had
been made with United Artists of
America, whereby British and
Dominion films will be distributed
by United Artists throughout the
United States, Australia, Canada,
and India. When the company's
present arrangement expires about
the end of this year its product will
be distributed by United Artists in
this country also. Later the or-
ganisation will be extended to give
the British company's productions
practically a world-wide market.

The new market is worth, Mr.
Marsh stated, £100,000,000.
The total value of the projected
concern is about £25,000,000. United
Artists of the World, as the new
organisation will be called, will
number amongst its British stars
Jack Buchanan, Tom Walls, Ralph
Lyons, Sidney Howard and Win-
fred Shotters, while the American
branch controls the pictures of
Charles Chaplin, Mary Pickford,
Daphne Fairbanks, Ronald Col-
man, Eddie Cantor, Josh Crawford
(for one picture "Rain"), Al Jolson
and Gloria Swanson.

MIGHTY WAR EPIC

Pictures In Hong Kong

"HELL DIVERS"

AER EPIC COMING TO
QUEEN'S

A trade notice states:—
The thrills of naval aviation
unroll themselves in a sensational
panorama, as a background for
poignant romance, and a drama of
heroism and sacrifice that has some-
thing of an epic quality to it, in
"Hell Divers," coming shortly to
the Queen's Theatre, with Wallace
Beery and Clark Gable in the
starring roles.

One sees the "Hell Divers," sen-
sational combat planes hurt them-
selves downward, two miles in less
than half a minute, at their targets.
Filmed with the co-operation of the
navy, this picture gives a new idea
of the navy in the air.

Like a silver thread, through the
spectacles and excitement, runs a
story of love, heroism and sacrifice.
There is the love of the grizzled
veteran, played by Beery, and the
Panama divekeeper, played by
Marjorie Rambeau, that actually
has something heroic in it. There
is the sacrifice, and the struggle
between the ideals of the old and
the new navy—in itself a mighty
element of drama.

Many famous navy aviators ap-
pear, in addition to a huge and
powerful cast. Beery, Gable and
Conrad Nagel play the principal
male roles splendidly; Miss Ram-
beau, Dorothy Jordan and Marie
Prevost score in the chief feminine
parts.

"COCK OF THE AIR"

BRILLIANT FARCE AT
CENTRAL

Howard Hughes' latest United
Artists production "Cock of the
Air," which is showing at the Cen-
tral Theatre to-day, is a bold and
brilliant farce, and amusing from
start to finish. Don't take this
clever comedy too seriously, and
prepare yourself for many laughs.
It is amazing entertainment—ultra-
smart and audacious—with risqué
situations so deftly manipulated
that the most sensitive do not ob-
ject.

It is the story of a dashing
American aviator, in a war-time
background, who admittedly would
rather love than fight, and whose
aerial exploits are as nothing com-
pared to his affairs of the heart.
The part is brilliantly portrayed
by Chester Morris, who is seen for
the first time in a purely romantic
and comedy impersonation.

A seductive Parisian actress,
played by Billie Dove, proceeds to
teach the American "love-act" a
few new tricks in the fascinating
game of romance, and succeeds ad-
mirably well as you can well im-
agine. The desperately humorous
situations which result from his
love duel, interspersed with thrill-
ing episodes both aerial and on
terra firma, combine to provide one
of the most interesting entertain-
ments that has reached the screen.

"OVER THE HILL"

AT THE ORIENTAL

A trade notice states:—
Sally Eilers, Fox star first came to
light as a comedienne; then she was
discovered as the perfect ingenue
type; later as a screen vamp and
in turn as the most beautiful
brunette in Hollywood. Yet with
all of these discoveries Sally's real
forte, her consummate ability as a
dramatic artist, remained un-
revealed and it was not until her
recent success, "Bad Girl," was
produced and previewed that her
emotional talents were unearthed.
And it is this Sally Eilers, the
emotional actress, who is again
teamed with her "Bad Girl" sweet-
heart, James Dunn, in the Fox
drama, "Over the Hill," now
showing at the Oriental Theatre.
These two youthful stars open the
romantic leads, with MacMurray,
venerable player of silent days, in
the other featured role, the first
role he has portrayed on the screen
in twenty years.

The large cast, supporting Miss
Eilers, Dunn and Miss Marsh in-
cludes: "Over the Hill" includes James
Kirkwood, Claire Maynard, Ed-
ward Crandall, William Pawley
and Olin Howland. Henry King
directed the production.

"MERRILY WE GO
TO HELL"

SHOWING AT KING'S
THEATRE

"Merrily We Go to Hell" at
the King's Theatre is a satire on
America's fast life. Scene follows
scene in which bibulous gentlemen
disport themselves before their
women folk—who join anxiously in
the merriment, to show what good
sports they are.

The story tells of a rich and
beautiful society girl, played by
Sylvia Sydney, who falls in love
with a handsome, but incurably
drunken young journalist. He
looks nice and he makes love
prettily, but there his virtues end
abruptly. We are told he is
"essentially loveable," but of this
there is not much sign. He is
drunk when he first meets the
young woman, and his charm con-
sists of a re-iteration of the phrase
"I think you're swell," which be-
comes a sort of slogan of the film.
Our poor hero is found lying
comatose in a car when he should
have been at the party announcing
his engagement; he and his best
man just get through the wedding
though both are completely fud-
dled. So it goes on, the re-appear-
ance of an old flame adding to the
complications. He writes a suc-
cessful play, but behaves so
abominably that at last his wife
leaves him. Back at his newspaper
job he hears that she has had a
baby and is thrilled in the usual
manner of fiction. Actually a man
of this type regards the arrival of
a baby (after an initial "honour-
ing" of the event) as an unmiti-
gated nuisance.

The film is notable for very good
acting by the two principals Sylvia
Sydney and Frederick March, by
Adrianne Allen, a most polished
player, as the old flame, and Skeets
Gallagher as the bibulous friend.
The photography is good and the
story quite well told.

"MILLION DOLLAR
LEGS"

NEXT CHANGE AT KING'S

A trade notice states:—
Fortune may lie in a sneeze;
fame may rest upon a pair of cross-
ed eyes, and steady work may be
derived from clever manipulation
of a toothpick. Such strange
trade-marks were revealed recently
in a survey of the screen comedians
who are appearing in "Million
Dollar Legs," Paramount's Olym-
pic Games Comedy, which comes to
the King's Theatre on Wednesday,
with a cast headed by Jack Oakie,
W. C. Fields, Ben Turpin, Lyda
Roberti and Andy Clyde.

When the roster of comedians
appearing in "Million Dollar
Legs" was examined, the most
obvious example of trade-mark
humour were found to be Billy
Gilbert, who has made a fortune
out of a comical sneeze; Ben Tur-
pin, whose crossed eyes have made
him world famous; and Ernie
Adams, in constant demand because
he gives character to a toothpick.

Ranging from stars down to the
minor players the other comedians
and their specialties are: Jack
Oakie, fast wisecrack patter; W. C.
Fields, prominent running nose and
corner-of-mouth talking; Andy
Clyde, walrus-mustached Soot;
Hugh Harbo, movable eye-brows;
Lyda Roberti, dialectician; George
Barber, expressive cigar; Hank
Mann, hair-comb; George
Irving, Bacon, "hick" character;
Big Saylor, pop-eyes; Dickie Moore,
mischievous kid; Ben Taggart, cocky
blundering; Vernon Dent, round
dignity; Fatty Hart, "short";

comedy, less than five feet tall;
Tex Madson, skinny sover-footer;
John Sinclair, "bump" artist;
Chick Collins, trick athletics;
Sam Adams, deadpan; Heinie
Conklin, comedy titter; Low Kelly,
"loco" comedy; Eddie Dunn,
thickheadedness; Frank Darlen,
"Homedy" comedy; Al Bridge,
"dapper" comedy; and Constan-
tine Romanoff, dumb-brute type.

MICKEY MOUSE—THE WORLD'S
GREATEST STAR

HIS DIRECTOR WANTS NEW COMRADES

"Mickey Mouse," one of the
highest paid stars in the country,
is endeavouring to increase his
stock company of players.

He is looking for characters to
augment his supporting cast of
Minnie (the girl friend), Clarabelle
Cow, Horse Collar Horace, Pluto
the Pup, and Dippy Dawg.
I am sure this will cause un-
precedented rejoicing throughout
the world. Mickey is the only
star who appeals alike to high-
brows and lowbrows.

He appeals to the highbrows be-
cause he is the only character on
the screen who is truly cinematic.
He is the only character who can
interpret sound and movement
irrespective of realistic consid-
erations—Time and space do not
affect him.

He appeals to the lowbrows be-
cause he is the greatest and fun-
niest little man on the screen.
His salary.
Today he earns a salary varying
between that of Marlene Dietrich

and Constance Bennett.
One "Mickey Mouse" cartoon
is released each month, and with
it, Walt Disney's companion
comedy, the "Silly Symphony."

In the United Kingdom I esti-
mate that Mickey Mouse is booked
to about a thousand cinemas a
month at an average of 24 a book-
ing. He therefore takes 24,000 a
month, or 21,000 a week. Perhaps
he earns a bit more than that, for
he has been known to book to 1,200
cinemas a month.

Then there is the "Silly Sym-
phony." The flora and fauna of
the Silly Symphony are not quite
so popular. They average, say, 23
a booking, or a trifling 23,000 a
month. You would hardly expect a
flora to keep alive on such a
figure, with the costly beauty treat-
ments and social engagements a
star has to maintain.

Takes 27,000 a Month in U.S.
But this is nothing to what
Mickey earns in America.

KARA SEA TRADING VOYAGE

20,000 TONS OF MACHINERY FOR SIBERIA

Twenty-eight ships are taking part in this year's Kara Sea trading voyage. In all 12 British, 10 Norwegian, 2 German, 2 Estonian and 2 Russian ships were chartered for the voyage which was formerly known as the Kara Sea Expedition. The word "expedition" which has been omitted from the charters in view of the more permanent character of the trading, has now been established with Siberia via the Kara Sea. The ships have left in convoys of five, the first convoy departing on July 16. The dates of their return will be during the period from Sept. 8 to about Oct. 15.

The quantity of cargo being taken is about 20,000 tons, consisting principally of machinery for works in Siberia, the proportion from the United Kingdom being about one-fourth. The ships will return with about 30,000 standards of timber, principally for this country. The greater part of the distance is by sea and river, some of the goods being transported 2,000 miles along the Yenesei, and an equal distance up the Ob. Afterwards various centres are reached by rail.

An official of the Kara Sea Bureau, whose offices are at Bush House, informed a representative of Lloyd's List that all the ships were under the charge of experienced masters, who were familiar with the special conditions to be met with on the sea route. River pilots would be subsequently employed.

English Bunkers.

All the ships except two—those of the Russian flag—were supplied with bunker coal, it was learned, in England. Coal for the icebreaker which is taking part in the voyage also came from this country, the quantity required being 2,100 tons.

Information concerning the choice of route is conveyed to the vessels by wireless when they reach Barents Sea, which is free of ice all the year round. Reconnoitring takes place by seaplanes, three being employed, and the information they obtain by their survey of the routes available and the general ice conditions is communicated to the icebreaker and then to the ships. The master of each of the ships was supplied with a printed chart (in Russian and English) which had been brought right up to date.

Each year, for some time past, it has been the practice to prepare new charts because of the changed conditions resulting from the provision of additional aids to navigation in the way of new light houses and the discovery of improved routes. During the past year a radio wireless station has been established at Zhelaniya. It is stated that many districts have been developed as the result of the opening up of the trade route. For example, Igarka, on the Yenesei, about 400 miles from month, was not in existence three years ago, and last year it had about 12,000 inhabitants. The river at that point is about three miles wide. Three sawmills have been established there, and they are reported to be busily engaged in preparing timber for transport by some of the ships engaged on the present voyage. About 50 miles from Igarka large supplies of anthracite and other kinds of coal were discovered last year, near the surface of the ground, and it is expected that this will mean a considerable development of the district, which is adjacent to the river Kureika. In charge of the trading voyage is Mr. Shevloff, whose chief assistant, Captain Ghibinsky, has been entrusted with the charge of operations where ice conditions prevail.

The New Ventures.

Four other expeditions, it is understood have been organized by the Russian Government this year, three being from the interior of the country, starting at Krasnoy. The first is designed to develop trading relations with parts of area at the mouth of the Lena; the second expedition is to the new Siberian Islands; and the third is to the mouth of the river Hataig. The fourth is a more ambitious project, the object being to open up a sea route between Archangel and Vladivostok and to create and develop centres of trading at various points along the route. The ice-breaker Taimyr will be employed in this expedition, and the venture will be under the leadership of Captain Evgenoff.
